

2016

RED ROCK

OUTDOOR GEAR

In July of 2014, amid the muggy summer weather in Robinson, TX, we started down the road toward producing American-made tactical slings. With only a part-time seamstress, a couple of sewing machines, and two sling designs, the first steps were taken. From those humble beginnings, along with over a year of trial and error, we now have an entire sewing room with up to six people (depending on the season) working to produce seven slings in up to three colors each.

Building upon the success garnered by our full line of tactical slings, we will be add a number of other products for the 2016 year, the first batch of which being dog accessories that are constructed with the same high-quality materials and craftsmanship as our slings . Before the end of the year, our craftspeople will begin a limited run of bags and packs which will be the cornerstone of, what we hope will prove to be, one of the most robust lines of American-made outdoor and tactical gear.

Building upon the tactical products for which we are known, 2015 was the largest single-year increase in the number of items we offered which helped it to be the biggest year yet for Red Rock Outdoor Gear. At the heart of all of our products is the drive to create packs and gear for outdoor enthusiasts at reasonable prices. Our customers and end-users have shown us that we have been hitting that mark without skimping on the quality which allows us to offer a lifetime guarantee against manufacturer's defects for the life of our packs.

We are very excited for 2016, a year where we will aggressively add items to our American-made product line as well as continue to expand our presence in the markets we tapped last year; Technical Packs and Commuter Packs. Thanks for your support and interest in our products.

The Red Rock Outdoor Gear team

Connect with us; we'd love to hear from you!

What is mavriK™?

mavrik™

mavriK is the specialized fastening and configuration system developed by Red Rock Outdoor Gear. We started by removing almost all of the built-in stuff that you would normally find in an off-the-rack pack. Once we freed up almost every interior inch, we lined the packs with our mavriK touch-fastener lining and touch-fastener-faced MOLLE webbing and created a line of 19 pouches designed specifically for our mavriK line of packs. Each pouch is moveable and removable so you can swap parts instead of packs when your needs or activities change; the result is the most customizable pack around.

Once we finished making a ridiculously awesome interior, we went to the drawing board for an equally impressive exterior. For that reason we chose 840 denier ballistic nylon and 420 denier dynatec nylon for a tough, yet attractive, combination. The durability achieved by pairing these fabrics flies in the face of the typical tactical market mindset of thicker + heavier = better. On account of both components having been proven to perform under almost any condition, we utilized YKK zippers and Duraflex hardware. Dense open cell foam was used throughout the walls of the pack to ensure the safety of the gear, as well as the straps and carry handles for a comfortable fit and carry. A subtle MOLLE webbing platform is affixed on the face of each pack to create a space for any last minute accessories. Overall, the exterior styling contains tactical nuances, but the shape and clean lines of the mavriK series transcend the tactical genre.

DIMENSIONS

11"W x 8"D x 23"H

WEIGHT

3 LBS (48 oz)

The U.45 is the largest pack in our mavrik™ Series. In contrast to common clamshell style packs, the U.45 features a U-style zipper which allows the main compartment to be opened completely. Once opened, the side panels lay flat, in line with the main compartment. The interior of the pack is lined with touch fastener and MOLLE webbing for attaching pouches and accessories.

Removable waist straps
with zippered pockets

- mavrik™ System compatible
- Foam padded walls
- Padded carry handle on top and front
- Nylon MOLLE webbing platform on front
- Zippered slip pocket on front
- Zippered utility pockets on each side
- Compression straps on each side
- Comfort padded straps, back panel, and waist strap
- Sternum Strap
- Removable waist strap with zippered hip pockets
- Soft-lined top pocket with earbud porthole

The B.35 is the only mavrik™ Series pack designed like a conventional backpack. Its exterior styling doesn't reveal the potential internally. Its main compartment zips open clamshell style to maximize the storage space. The inner side of this compartment has a padded laptop sleeve sewn in, while the opposite side features mavrik™ lining. The secondary compartment is designed for concealed carry; a top and two side zippers provide three access points to this compartment. The mavrik™ lining in the concealed compartment can easily secure a pistol, magazine pouches, and accessories that need to be accessed quickly. An organizer pocket is located on the front panel of the pack for pens, cards, keys, and more. Elastic loops for gear and additional mags are also easily accessed in the front organizer pocket. The B.35 is ideal for a lifetime EDC pack.

mavrik™ S.08

The S.08 is an ambidextrous sling pack featuring the mavrik™ System. A concealed-carry compartment is built into the back panel with zippers on both sides allowing the bag to be drawn from across the chest and firearm easily accessed. The main compartment has a tablet sleeve sewn in the backside with a mavrik™ lining clad front. Adding our mavrik™ pouches to the main compartment makes it ideal for a camera kit, first aid kit, range bag, or grab-and-go bag. The secondary compartment has an organizer pocket for pens, cards, keys, and more. Elastic loops for gear and additional mags are also easily accessed in the front organizer pocket. The S.08 is ideal for a discreet sling pack.

- mavrik™ System compatible
- Foam padded walls
- Slip pocket accommodates an ipad or other popular tablet.
- Rear compartment accepts CCW accessories
- Adjustable ambidextrous strap
- Zippered utility pocket on each side
- Nylon MOLLE webbing platform on front
- Zippered organizer pocket on front
- Dense padded strap and back panel

Room for most
tablets & smaller
notebooks

Chest strap can be set
ambidextrously

Technical Packs

Canyon #84-C45

Constructed from a blend of lightweight, durable, water-resistant nylon and polyester fabrics, the Canyon Technical Pack boasts 45 liters of storage. Much like our smaller technical pack, the Canyon has a padded waist strap with zippered pockets and contoured shoulder straps for added comfort but the mesh ventilating back panel on the Canyon takes the comfort up another notch by adding raised-padded cushions on either side of your spine. A numerous assortment of pockets, sleeves, shock cords, and slip pockets make organized and toting your gear into a simple task. An integrated rain fly, pair of water bottle holders, and a blaze-orange emergency whistle quick-release buckle on the sternum strap round out the bevy of feature on the Canyon Technical Pack.

DIMENSIONS	WEIGHT
15"W x 23"H x 9"D	2.85 LBS (45.6 oz)

- 210D nylon & 600D polyester outer shell with 210D nylon inner lining
- Top-loading main compartment, bottom access zipper
- Soft-lined valuable/device pocket
- Contoured shoulder straps
- Padded waist strap
- Ventilated back panel
- Integrated water resistant cover
- Sternum strap with emergency whistle quick-release buckle

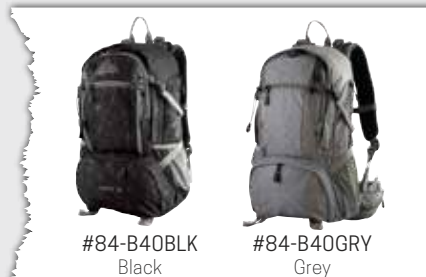

Bluff

#84-B40

The Bluff Technical Pack is constructed with a blend of nylon and polyester fabrics for a lightweight, durable, and water-resistant outer shell; a built-in water resistant rain fly goes a step further to keep your gear dry on the trail. The padded waist strap, which includes two zippered hip pockets, contoured shoulder straps, and mesh back panel, which keeps the Bluff from sitting directly on your back, make this one of the most comfortable packs around. The overall 40 liters of storage are peppered with built-in zippered pockets and sleeves for organizing gear without intruding on the overall capacity of the pack. A multitude of compression straps, bottle holders, and shock cords make securing gear to the outside of the pack a cinch. As a safety measure, we've added an emergency whistle quick-release buckle in blaze orange color to the sternum strap.

- Padded waist strap
- Ventilated back panel
- Integrated water resistant cover
- Sternum strap with emergency whistle quick-release buckle

Commuter Packs

Camino #86-001GL

The Camino is the smaller of two new Commuter Packs designed for a less-tactical look. The Camino offers 16 liters of storage in a streamlined package that provides ample room for your everyday necessities. The pack's exterior features 600D polyester construction with a padded carry handle and an air-mesh lining on both the shoulder straps and back panel. The integrated laptop sleeve will accept up to a 17" laptop and is backed with our mavriK-compatible lining. On the front of laptop sleeve is an incorporated tablet sleeve opposite of a built-in admin panel. On the top of the pack sits a soft-lined pocket suitable for glasses or digital devices. The Camino is faced with a zippered slip pocket for any last minute items grabbed on your way out of the door.

DIMENSIONS

18"W x 13"H x 5"D

WEIGHT

1.2 LBS (19.2 oz)

- Slim ergonomic design
- 16 liters of total storage
- Integrated laptop sleeve for most laptops up to 17" with tablet pocket
- Moisture-wicking air-mesh padded straps and back panel with ventilation channels
- Soft-lined top pocket for devices or glasses
- Padded top carry handle
- 600D polyester construction

Segundo #86-002GL

The Segundo is the larger of two new Commuter Packs designed for a less-tactical look. The Segundo boasts 28 liters of storage split between dual main compartments. The exterior of the pack features 600D polyester construction with an integrated carry handle and an air-mesh lining on both the shoulder straps and back panel. The first main compartment contains an integrated laptop sleeve which will accept up to a 17" laptop and is lined with our mavriK-compatible lining; on the front of laptop sleeve is an incorporated tablet sleeve opposite of a twin mesh slip pockets. A second main compartment has a zippered mesh slip pocket facing twin mesh slip pockets. A soft-lined pocket, suitable for glasses or digital devices, sits atop the pack while a front pocket houses an admin panel along with two clips for keys or other small items.

DIMENSIONS	WEIGHT
19"W x 13"H x 9"D	1.9 LBS (30.4 oz)

Dual main compartments

Integrated carry handle

- Compact ergonomic design
- 28 liters of total storage
- Dual main storage compartments
- Integrated laptop sleeve for most laptops up to 17" with tablet pocket
- Soft-lined top pocket for devices or glasses
- Yoke-style shoulder straps with integrated carry handle
- Moisture-wicking air-mesh padded straps and back panel with ventilation channels
- 600D polyester construction

Canvas Series

Austin #88-011K

Our Austin Canvas-Series Backpack features a compact, ergonomic design while touting a large main storage compartment with a separate zippered padded laptop compartment that can accommodate laptops up to 17". The zippered front slip pocket, dual water bottle holders, and main storage compartment can handle 26 liters of total storage. Moisture-wicking air-mesh padded shoulder straps promote a comfortable carry while the cotton canvas construction and PU leather bottom allow this pack to look at home anywhere you're going.

DIMENSIONS

19"W x 13"H x 18"D

WEIGHT

1.8 LBS (28.8 oz)

- Compact ergonomic design
- 26 liters of total storage
- Large main storage compartment
- Separate padded laptop compartment accommodates laptops up to 17"
- Zippered front slip pocket
- Dual water bottle holders
- Cotton canvas construction
- Moisture-wicking air-mesh padded shoulder straps

Zippered padded laptop compartment

Sportsman #88-001K

Whether you're just running around the town or leaving it behind for the weekend, the Sportsman Carry Bag is always a great choice. The durable cotton canvas, leather accents, and metal hardware rarely look out of place while the built-in laptop sleeve, dual exterior utility pouches, and flanking zippered pockets keep your EDC items secured and leave the main compartment free for clothes, shoes, or anything else. The Sportsman Carry Bag has a PU leather bottom to help keep your stuff dry and stand up to years of abuse while interlocking carry handles and a removable shoulder strap expand the functionality of this bag.

DIMENSIONS	WEIGHT
19"W x 13"H x 6"D	1.9 LBS (30.4 oz)

Removable shoulder strap

- Casual weekender-style design
- Dual front storage compartments
- Integrated laptop sleeve for most laptops up to 17"
- Interlocking carry handles
- Heavyweight buckles and hardware
- Leather accents and straps
- Cotton canvas construction

Canvas Series

Hunter #88-002K

The Hunter Carry Bag, one of the new bags in our Canvas Series, is a versatile utilitarian carry-all with style. Leather accents, piping around the base, and metal hardware set this bag apart when it comes to looks while the spacious main compartment provides ample room for whatever you'll be carrying, plus storage for a laptop within the integrated sleeve. The reinforced attachment points on the handles ensure that this bag will be able to last for years. Snap-closure compression points flank the zipper so you can secure your bag before hitting the road.

DIMENSIONS	WEIGHT
19"W x 13"H x 8"D	1.4 LBS (22.4 oz)

- Front slip compartment
- Snap-closure reducing straps
- Cotton canvas construction
- Zippered closure
- Integrated laptop sleeve for most laptops up to 17"
- Interlocking carry handles

Snap-closure attachment points provide compression and security

Trapper #88-003K

Instead of compromising between functionality and style when getting yourself a carry-all bag, check out the Trapper Carry Bag. The durable cotton canvas construction and PU-leather lower will be robust enough to brush off anything you throw at it. A soft-lined laptop sleeve in the main compartment is also home to a tablet sleeve to keep your electronics secured and protected from whatever else you may put in the Trapper. Reinforced carry handles and a removable padded shoulder strap offer multiple ways to tote this

bag. For even more added functionality, there are two soft-lined zippered pockets on the front of the bag, perfect for glasses, knickknacks, and phones (or other digital devices).

DIMENSIONS

19"W x 15"H x 9"D

WEIGHT

1.7 LBS (27.2 oz)

Padded removable
shoulder strap

- Zippered front slip compartments
- Multiple external accessory pockets
- Fold-top zippered closure
- Removable shoulder strap
- Integrated laptop sleeve for most laptops up to 17"
- Cotton canvas construction

Backpacks

Assault Pack

#80126

Substantial storage, top-notch comfort, and extreme customizability are just a few reasons that the Assault Pack is our most popular backpack. Four expanding compartments provide up to 28 liters of storage with built-in internal dividers and zippered pockets. Adjustable reinforced padded mesh shoulder straps, an adjustable waist strap, and a sternum strap evenly distribute the weight across your shoulders and waist for all-day comfort. A padded mesh back panel serves as a concealed pocket or provides storage for almost any hydration bladder, up to 2.5 liters (hydration bladder sold separately, see P. 35). With compression straps on three sides, it is a cinch to tighten down your pack or to reduce the volume if you aren't fully loaded. The outside of this pack is clad in MOLLE webbing to allow for expansion and customization to make it the perfect base for a bug-out or EDC bag.

DIMENSIONS

9.5"W x 12.5"D x 18"H

WEIGHT

2.5 LBS (44.8 oz)

- Reinforced carry handle
- Mesh ventilated padded back panel
- Touch fastener closure external pocket will accept a 2.5 liter hydration bladder
- Fully adjustable contoured and padded shoulder straps with D-rings for attachments
- Medium 2 liter external organizer pocket for survival and outdoor essentials
- Four quick-release compression straps for expansion or consolidation
- MOLLE webbing platform for attaching additional pouches or gear
- Adjustable waist and sternum strap
- Touch-fastener keepers for excess strap slack
- 600D polyester construction

The mesh padded back panel can hold up to a 2.5L hydration bladder

Defender Pack

#80150

The Defender Pack is one of two new packs featuring a laser-cut MOLLE platform which offers a sleeker profile without sacrificing any of the modularity you expect from our tactical packs. The Defender Pack sports a mesh-ventilated back panel and contoured shoulder straps, a reinforced carry handle, and quick-release strap buckles for rapid deployment. The spacious main compartment will accept a 2.5L hydration bladder (hydration bladder sold separately, see P.35), while both the main and secondary compartments have a soft touch-fastener lining that will accept our line of mavriK accessories.

- Laser-cut MOLLE webbing platform for attaching additional pouches or gear
- Touch-fastener lining
- mavriK compatible
- 600D polyester construction

Backpacks

Engagement Pack #80161

The Engagement Pack is based on traditional military tactical design and is the only pack we make with an internal composite frame. This pack offers 26 liters of storage when fully assembled with the included detachable butt-pouch. Its large main compartment has a built in hydration bladder pocket and covered hydrator hose porthole (hydration bladder sold separately, see P. 35). The secondary compartment has ample room for a tablet or standard sized laptop and features an external zippered pocket. The two contoured shoulder straps, sternum strap, and removable waist strap with hip padding equally distribute weight for a more comfortable carry. With compression straps on three sides, it is a cinch to tighten down your pack or to reduce the volume if you aren't fully loaded. MOLLE webbing on the front and on either side allow for expansion and customization and make it the perfect base for a bug-out or EDC bag.

Diplomat Backpack

#80171

As the largest backpack we make, the Diplomat Backpack has enough storage to hold everything you'll need for 72+ hours. The main compartment features a wrap-around zipper to open completely for unhindered access to two quick-release gear straps and a large mesh pocket. The secondary compartment contains admin organizers and divider sleeves, as well as a pleated external pocket. Three utility compartments (one below the secondary compartment and one on either side of the pack) adorn the exterior of the bag and are clad in MOLLE webbing. The padded back panel has a zippered closure for storage of a standard laptop or a hydration bladder (hydration bladder sold separately, see P. 35). This pack has four compression straps, three reinforced drag handles, and three hydration tube port holes. Our Diplomat Backpack is the ultimate bug-out bag or three-day bag.

Shock cord for attaching additional gear

Dual water bottle holders that fit standard-size bottles

Internal compartment with hydration bladder hanger and quick access port hole

Summit Backpack #80203

Perfect for your EDC or a day pack, the Summit Backpack is lightweight and compact. The large main compartment houses a hydration bladder sleeve with zippered and touch-fastener closure pockets, as well as a covered hydrator hose port hole (hydration bladder sold separately, see P.35). An admin organizer is built in to the secondary compartment which has an external offset zippered pocket. Dual mesh water bottle holders are built in on the sides and have a PVC-lined bottom to keep you dry even when your bottles sweat. An integrated X-style shock cord near the bottom of the bag is perfect for shedding a layer or strapping gear in while the Y-style compression strap helps you secure your load. The adjustable shoulder straps are contoured and equipped with a removable sternum strap. MOLLE webbing on the front and on either side allow for expansion and customization of this 23 liter compact tactical backpack.

Shock cord holds a bed roll or shredded layers of clothing

- Hydration compatible sleeve with port hole for routing hydrator hose
- MOLLE webbing platform on front and side panels
- Y-style compression strap secures the bag
- Drawstring mesh water bottle holders on both side panels
- Slant zippered front pocket provides quick-access
- Designed as a day pack, and compact enough to be a lightweight EDC bag
- Fully adjustable and contoured backpack straps with quick-release sternum strap
- 600D polyester construction

Deluxe Rifle Backpack #80280

The Deluxe Rifle Backpack is a versatile, comfortable rifle pack. This top-loading pack features a $\frac{3}{4}$ length zipper on the side to make loading and unloading firearms more convenient. The removable internal divider provides padded security for multiple firearms. The pack measures 38" when the top compression strap are fully reduced, and the bag expands up to an additional 8" to accommodate long rifles. The backpack strap system is heavily padded and can be adjusted for comfort and height of user. Both the backpack straps and the waist strap are removable to allow the bag to be carried by the included shoulder strap.

Expandable top fold for longer rifles

Slings

Rover Sling Pack

#80129

Our most popular concealed-carry pack is the Rover Sling Pack. The Rover is equipped with an ambidextrous sling which allows for quick, hands-free access. A concealed-carry sleeve on the back panel of the bag easily and comfortably houses a pistol. The main compartment of the bag is large enough to fit most popular tablets. The three storage compartments are large enough to tote a first aid kit, binoculars, ammunition, or many survival essentials. Internal and external pockets contain admin dividers and organizers.

Rambler Sling Pack

#80201

Our Rambler Sling Pack features a single strap to allow the pack to be easily transferred from the back to the chest for quick access to the main compartment which contains several mesh pockets and dividers. When across the chest, the openings face up granting direct access to the Rambler's contents. Two front external compartments serve as utility pockets, with the larger having a key holder clip. The Rambler makes a perfect CCW pack with quick-access to all of the compartments. A mesh padded back panel opens horizontally and can hold up to a 2.5 liter hydration bladder (hydration bladder sold separately, see P. 35). The Rambler Sling Pack boasts 15 liters of total compartment space.

Slings

Recon Sling Pack

#80139

The Recon Sling Pack is designed for concealed carry, and utilizes our new mavrik™ system for rapidly interchanging gear. The backmost compartment is lined with touch fastener to create a concealed-carry space large enough for most standard pistols. The larger main compartment is joined with a touch-fastener backing and a quick-release buckle which allows it to be removed from the base pack. When removed, the main compartment can be transported to another pack featuring the mavrik™ system. Additionally, the removable main compartment can be loaded with mavrik™ Series pouches and accessories. The back panel features breathable padded mesh for a comfortable wear. This sling is ideal for right-handed shooters. An 82-024 Universal Holster in the coordinating color is included.

Hipster Sling Bag

#80138

The Hipster Sling Bag is a concealed-carry bag that rides on the hip or waist. When worn on the hip, the Hipster expedites access to the concealed-carry panel on the back of the bag. The main compartment contains a mesh slip pocket and is protected by a drawstring cover. The front zippered pocket serves as an admin pouch with elastic webbing for securing smaller items. On either side of the bag there's an insulated bottle holder or a small utility pouch. The front flap serves as a cover for the main compartment with a compression strap that secures the entire bag. The adjustable single shoulder strap can be used in concert with an integrated belt attachment to anchor the bag to your hip.

DIMENSIONS	WEIGHT
11.5"W x 5"D x 10"H	1.6 LBS (25.6 oz)

Multiple pockets to carry your everyday essentials

Back padded sleeve for CCW with a durable snap to safely secure your firearm

- Adjustable shoulder strap with a quick-release buckle
- Snap-closure back panel with touch-fastener sleeve for CCW
- Insulated water bottle holder with drawstring closure
- Zippered utility pouches on both side and top
- Quick-release compression strap covers the front of the bag
- 600D polyester construction

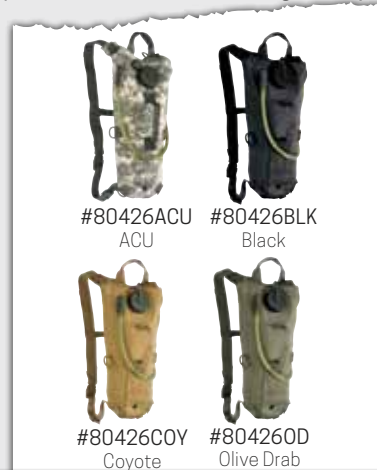

Hydration Packs

DIMENSIONS	WEIGHT
9"W x 2"D x 17"H	1.05 LBS (16.8 oz)

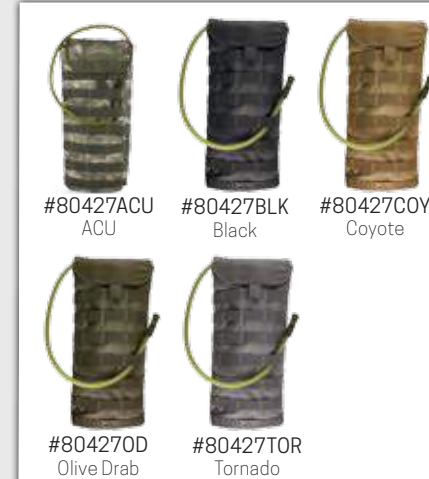

Rapid Hydration Pack #80426

With the minimalist in mind, the Rapid Hydration Pack has only one compartment which stores the 2.5 liter hydration bladder. The sleek body of the pack features two lightweight shoulder straps with an adjustable quick-release sternum strap and is surrounded by six D-rings for attaching gear. Reinforced carry handle on top and on face for on-the-go carry.

MOLLE Hydration Attachment #80427

The MOLLE Hydration Attachment is the perfect addition to any tactical bag. A 2.5 liter hydration bladder compartment is secured by a touch-fastener closure flap with a name strip. MOLLE webbing covers the entire pouch which allows it to be attached to any compatible MOLLE gear.

DIMENSIONS	WEIGHT
8.5"W x 1.5"D x 17"H	.9 LBS (14.4 oz)

New

In order to make sure you and your tactical pack are ready to handle anything, we have a full line of 21 MOLLE accessories ranging from wallets and tablet sleeves to rifle scabbards and mag pouches, all of which are designed to fulfill any need you may have when it comes to packing or protecting your gear. Each MOLLE accessory made by Red Rock Outdoor Gear is constructed from durable, yet lightweight, 600 denier polyester and features reinforced MOLLE connection points. Although these MOLLE accessories were designed with the line of Red Rock Outdoor Gear packs in mind, they adhere to the universal MOLLE standard and can be used with a myriad of packs from a plethora of manufacturers. Pay special attention to our two new MOLLE attachments for this year, the 82-012 MOLLE Tablet Sleeve and the 82-016 MOLLE Canteen Cover. Also new for 2016 is the addition of our Tornado color for all of our accessories, available Spring 2016.

MOLLE Attachments

MOLLE Rifle Scabbard #82-026

DIMENSIONS	WEIGHT
11"W x 5"D x 36"H	3.7 LBS (25.6 oz)

Our MOLLE Rifle Scabbard is a quick-access sling for rifles that can be worn alone, or attached to any pack with MOLLE webbing. This scabbard features padded walls to keep your rifle safe. Its bidirectional MOLLE webbing allows it to be attached to a wide variety of gear, from backpacks and slings to stands and ATVs. An integrated quick-release strap allows you to customize the length of the scabbard, which makes it ideal for both short and long rifles. A removable padded shoulder strap is included.

- Adjustable, removable padded shoulder strap
- Adequate space for popular AR-15s
- Covered in bidirectional MOLLE webbing
- Quick-release buckle and strap for modifying length
- Padded walls provide rifle protection
- 600D polyester construction with PVC backing

MOLLE Attachments

DIMENSIONS	WEIGHT
29"W x 6"D x 2.5"H	1.2 LBS (19.2 oz)

The MOLLE Shotgun Scabbard is a quick-access attachment scabbard for standard size shotguns. With MOLLE webbing platform lining both sides, the scabbard can attach to a pack or vest and also allows for the addition of pouches or gear to the scabbard itself. Rigid padded walls protect the shotgun. An adjustable sling strap is also included for over-the-shoulder carry.

- Moveable MOLLE attachment mounts
- Rigid padded interior walls
- Adjustable, removable shoulder strap
- Fits Remington 870s and standard size shotguns
- MOLLE webbing on front and back panels
- 600D polyester construction with PVC backing

Ghillie Suits

5-Piece Ghillie Suit

The industry standard for ghillie suits, the Red Rock Outdoor Gear 5-Piece Ghillie Suit, offers superior comfort and convenience. Our suit is designed to go on quickly over clothing and allow direct access to pockets underneath making it ideal for layering. The dense ghillie material provides effective camouflage in a lightweight package which is suitable for hunting in numerous environments. The pants have an elastic waist and a drawstring to offer a comfortable, custom fit. To go on easily over boots, the pants have snap closures on the outer seam near the ankle. A drawstring-equipped hood covers the entire head and neck. The gun wrap has elastic and a drawstring which allows it to cover an average size shotgun or rifle. The entire ghillie suit fits into the included stuff sack.

- Elastic pant waist with drawstring
- Elastic jacket cuffs
- Easy snap-closure jacket
- Adjustable chin strap in hood
- Drawstring stuff sack with carry strap included
- Lightweight and breathable polyester construction
- 100% polyester
- Includes: jacket, hood, pants, gun wrap, and stuff sack

Ghillie Suits

2-Piece Ghillie Parka

Our Ghillie Parka is built with the minimalist in mind. The knee-length jacket with built-in hood is constructed of our full-coverage ghillie material and has a snap-closure front. A drawstring allows the hood to be adjusted. With just two pieces, the Ghillie Parka is an easy-to-pack, grab-and-go item that still offers full camouflage concealment. The Ghillie Parka includes a stuff sack with shoulder strap.

Camo Netting

Big Game

Our Field Series and Trophy Series Big Game Camouflage Nets offer thick concealment and significant durability. The reversible matte brown and matte green color scheme make it ideal for all seasons and regions. It's constructed of a water-resistant polyurethane-coated material with all edges sewn. Enhanced fabric and construction allow this net to be used season after season. The edges feature tie straps all the way around and make hanging this net simple. The leaf-cut design gives this netting a three-dimensional look with superior depth making it ideal for concealing blinds, ATVs, boats, supplies, or other gear. Our Big Game Trophy Series Net boasts a military style mesh backing. A stuff sack is included for storage and transportation.

Trophy Series with Mesh Backing

- Our most durable netting chosen by professional hunters
- Three-dimensional leaf-cut design
- Effective for all seasons
- Matte brown/green reversible color scheme
- Lightweight compact design
- Easy setup and take down
- Glare-free, water-resistant fabric
- Resistant to mold and rotting
- All outer edges sewn
- Tie straps along all edges
- Stuff sack included
- Includes mesh backing

Field Series without Mesh Backing

- Rugged design for any avid hunter
- Three-dimensional leaf-cut design
- Effective for all seasons
- Matte brown/green reversible color scheme
- Lightweight compact design
- Easy setup and take down
- Glare-free, water-resistant fabric
- Resistant to mold and rotting
- All outer edges sewn
- Stuff sack included
- Does not include mesh backing

Camo Netting

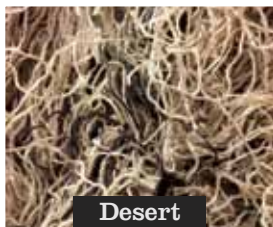

Hunting Series

The Hunting Series Camouflage Net is the most versatile camouflage netting on the market. Lightweight construction makes this net easy to carry and deploy. Our three-dimensional leaf-cut design provides superior concealment with a full, natural look. A military-style mesh backing and reinforced edges ensure that our Hunting Series Net is built to last. The two metal rings sewn into each corner make hanging and securing this net a simple task. A stuff sack is included for storage and transportation.

- Quiet leaf-cut three-dimensional design
- Lightweight fast-drying material
- Two metal rings in each corner
- Military-style mesh backing
- Drawstring stuff sack included

- Pick up ground debris for natural coverage

Ghillie Blind

Our Ghillie Blind is one of a kind. By using the same construction as our popular ghillie suits, we've constructed the most effective camouflage coverage. Concealing a ground blind, deer stand, ATV, or other gear is easy thanks to its thick three-dimensional ghillie design. Nylon webbing tie straps surround the reinforced edges for hanging and securing the cover. A stuff sack with shoulder strap is included for storage and transportation.

- Rugged polyester construction
- Reinforced edges with tie straps
- Available in both woodland and desert patterns
- Multi-layered ghillie material
- Drawstring stuff sack w/shoulder strap included
- Now offered in two sizes

Tactical Accessories

Cross Draw Vest #520

The Cross Draw Vest features a mesh platform with assorted pockets and pouches. There is an adjustable hard-form pistol holster on the left side of the chest for a quick, convenient draw. Above the pistol holster are three pistol mag pouches. The opposite side of the vest boasts three 30-round mag pouches and, above them, a utility pocket for ammo or first aid. A touch fastener name panel covers the utility pocket on the right chest. A glove pouch is located on the left shoulder while the right shoulder features a rifle stabilizer for shooting. The vest is fully adjustable with three compression straps on both sides for altering the size. Also, the Cross Draw Vest features an adjustable duty belt with two additional pistol mag pouches. The back of the vest is clad in MOLLE webbing, perfect for the addition of a hydration pack.
